

## Software Developer

### Summary of Position:

Axon's software package is used as a business management tool in the transportation industry throughout North America. We are searching for intelligent, professional individuals that want to work at a highly energetic, fast-growing company. The position we are looking to fill is **Software Developer**.

Programming at Axon is done using Suneido, an open-source integrated application program, in conjunction with cloud services like S3, EC2, and SQS. We work primarily in Windows with some occasional use of Linux. We follow agile and lean techniques such as pair programming, automated testing, refactoring, and continuous delivery. You will have opportunities to work on everything from gathering requirements, to UX design, to automated deployment systems.

If selected, you will join us in our brand new custom-designed office, located in the beautiful Innovation Place in Saskatoon. Over the past 30 years, Axon has built a successful suite of business software for the transportation industry and combined it with great sales, training and support teams. If you are a talented programmer looking for a challenging and rewarding career, we would love to hear from you.

Axon offers a **competitive base salary** depending on education, experience, and ability level. We also offer a **health benefits package** and **close access parking passes**.

### Education and Qualifications:

You must know how to program – simple as that. Beyond that, we do not have a checklist of specific qualifications. Whether you are just starting your career or are an experienced veteran, we are open to talking with you. Tell us what you have to offer, whether that's enthusiasm and the desire to learn, or 10 years of programming experience.

### To Apply:

Please send resumes and cover letters via email to [programmingjobs@axonsoft.com](mailto:programmingjobs@axonsoft.com) with the subject:

"Programming Resume and Application"

We would like to sincerely thank all applicants, but only those scheduled for an interview will be contacted.
